INSTALLATION PS 1.6

1. Go to the *List of modules* (Modules → Modules)

The screenshot shows the 'Lineagrafica - módulos demo prestashop 1.6' interface. The left sidebar contains a menu with 'MODULES' highlighted. The main content area is titled 'MODULES List of modules'. It features a search bar and a 'Filter by' dropdown set to 'Installed & Not Installed'. A table lists various module categories with their respective counts: Favorites (9), All (167), Administration (18), Advertising and Marketing (13), Analytics and Stats (27), Checkout (1), Comparison site & Feed management (3), Dashboard (4), Emailing & SMS (1), Front Office Features (52), Marketplace (4), Merchandising (1), Mobile (1), Payments and Gateways (14), and Pricing and Promotion (4). To the right, a list of installed modules is displayed, including 'Customer Questions about Products v1.0 - by Line', 'Dropshipping - Emails to Suppliers and Carrier', 'Easy Design - Header, Footer, Product Sheets, H', 'EU Cookie Law (Notification Banner + Cookie B', 'Fast Access to the Order Details v1.0 - by Line', 'Free Shipping / Delivery by Zone, Price and Wei', 'Moving and Copying Products between Categor', and 'Multilingual and Multistore Sitemap Generator'.

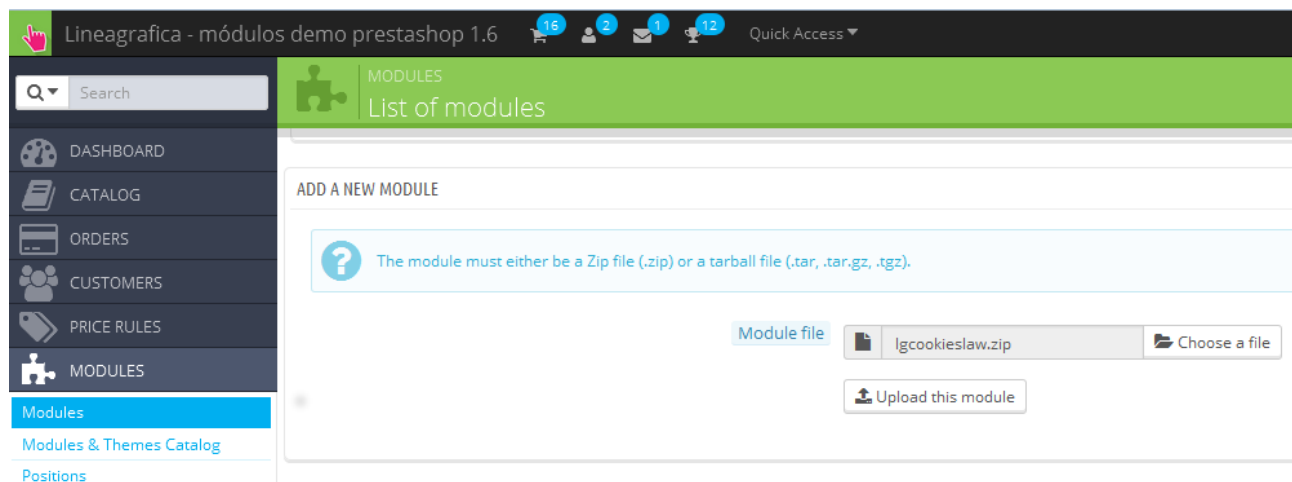

2. Click on *Add a new module*

The screenshot shows the PrestaShop Addons interface. At the top, it says 'Not connected to PrestaShop Addons'. Below this, there are three buttons: 'Update all', 'Add a new module' (highlighted with a red box), and 'Help'. Below the buttons, there is a search bar for 'Authors' with 'All' selected.

3. Click on *Choose a file*

4. Select the *lgcookieslaw.zip* file

5. Click on *Upload this module*

6. Find the *EU Cookie Law* module

7. Click on *Install*

8. Click on *Configure*

Note : On PrestaShop 1.6, the module automatically creates an override of the Cart.php file in override/classes/Cart.php so that you don't have to make any modifications in the source code.

INSTALLATION PS 1.5

1. Go to the *List of modules* (Modules → Modules)

Lineagráfica - Prestashop 1.5x modules

Catalog Orders Customers Price Rules Shipping Localization Modules Preferences Advanced Parameters Administration Stats

Module : List of modules

Do you have a PrestaShop Addons account?

Search Sort by: All Modules Installed & Not Installed Enabled & Disabled All countries

An upgrade is available for some of your modules!

Note : On PrestaShop 1.5, the module automatically creates an override of the Cart.php file in override/classes/Cart.php so that you don't have to make any modifications in the source code.

INSTALLATION PS 1.4

1. Go to the *Modules* page

2. Click on *Add a module from my computer*

3. Click on *Browser*

4. Select the *lgcookieslaw.zip* file

5. Click on *Upload this module*

Module file

lgcookieslaw.zip

Upload the module from your computer.

6. Find the *EU Cookie Law* module

7. Click on *Install*

EU Cookie Law (Notification Banner + Cookie Blocker) v1.1 by *Lineagrafica.es*

Display a responsive and customized warning banner and disable cookies when users enter your website until you obtain their consent.

Install

[Delete](#)

8. Click on *Configure*

EU Cookie Law (Notification Banner + Cookie Blocker) v1.1 by *Lineagrafica.es*

Display a responsive and customized warning banner and disable cookies when users enter your website until you obtain their consent.

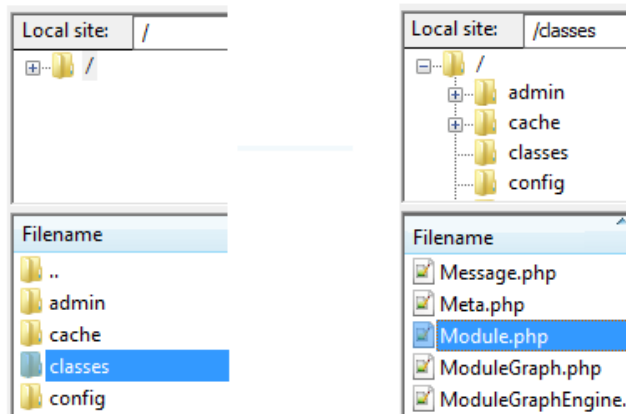

Uninstall

[Delete](#)

[Disable](#) [Reset](#) [Configure](#)

9. Go to the *classes* folder and edit the *Module.php* file

10. Find this line of code (about line 704)

```
$hook_name = strtolower($hook_name);
```

You can use the search tool with **CTRL + F** to find it faster

11. And add this piece of code just after

```
// lgcookieslaw by lineagrafica.es START
if (Module::isInstalled('lgcookieslaw'))
    $lgcookieslawinstall = 1;

    $lgcookieslaw = Db::getInstance(_PS_USE_SQL_SLAVE_)->ExecuteS('SELECT id_module
FROM '._DB_PREFIX_.'lgcookieslaw');
    $lgcookie = array();
    foreach ($lgcookieslaw as $lgcookieLaw)
    {
        $lgcookie[] = ($lgcookieLaw['id_module']);
    }
// lgcookieslaw by lineagrafica.es END
```

12.Find this code a couple of lines after

```
$row['hook'] = strtolower($row['hook']);
    if (!isset(self::
$_hookModulesCache[$row['hook']]))
        self::
        $_hookModulesCache[$row['hook']] = array();
        self::$_hookModulesCache[$row['hook']][]
array('id_hook' => $row['id_hook'], 'module' => $row['module'], 'id_module' =>
        $row['id_module'], 'live_edit' => $row['live_edit']);
```

13.Replace it by this piece of code

```
// lgcookieslaw by lineagrafica.es START
if ($lgcookieslawinstall == 1)
{
    if (!Configuration::get('PS_LGCOOKIES_TESTMODE') == 1)
    {
        if (!isset($_COOKIE[Configuration::get('PS_LGCOOKIES_NAME')]))
        {
            if (!in_array($row['id_module'],$lgcookie))
            {
                $row['hook'] = strtolower($row['hook']);
                if (!isset(self::$_hookModulesCache[$row['hook']]))
                    self::$_hookModulesCache[$row['hook']] =
array();
                self::$_hookModulesCache[$row['hook']][] =
array('id_hook' => $row['id_hook'], 'module' => $row['module'], 'id_module' => $row['id_module'], 'live_edit' =>
$row['live_edit']);
            }
        }
        else
        {
            $row['hook'] = strtolower($row['hook']);
            if (!isset(self::$_hookModulesCache[$row['hook']]))
                self::$_hookModulesCache[$row['hook']] = array();
            self::$_hookModulesCache[$row['hook']][] = array('id_hook'
=> $row['id_hook'], 'module' => $row['module'], 'id_module' => $row['id_module'], 'live_edit' =>
$row['live_edit']);
        }
    }
    else
    {
        $row['hook'] = strtolower($row['hook']);
        if (!isset(self::$_hookModulesCache[$row['hook']]))
            self::$_hookModulesCache[$row['hook']] = array();
        self::$_hookModulesCache[$row['hook']][] = array('id_hook' =>
$row['id_hook'], 'module' => $row['module'], 'id_module' => $row['id_module'], 'live_edit' => $row['live_edit']);
    }
}
else
{
    $row['hook'] = strtolower($row['hook']);
    if (!isset(self::$_hookModulesCache[$row['hook']]))
        self::$_hookModulesCache[$row['hook']] = array();
    self::$_hookModulesCache[$row['hook']][] = array('id_hook' =>
$row['id_hook'], 'module' => $row['module'], 'id_module' => $row['id_module'], 'live_edit' => $row['live_edit']);
}
}
// lgcookieslaw by lineagrafica.es END
```

CONFIGURATION OF THE CONSENT COOKIE

1.Duration of the content for the use of cookies

Set the cookie lifetime (in seconds) during which the user content will be saved.

Cookie lifetime (seconds):

1 year = 31536000s

It allows the module not to ask users their consent for the use of cookies every time they come to your store.

The module only asks the user consent at the first visit and then keeps the consent during the time set above.

Once the time is over, the module will ask again the user consent.

According to the CNIL (French organisation), the cookie lifetime can not be longer than 13 months.

2.Name of the consent cookie used by our module

Give a relevant name to the cookie used by our module to keep the user content.

Cookie name:

Name by default: _lglaw

It allows you to recognize this cookie among the other cookies used on your store.

The cookie name will be shown when you scan your store to see the cookies used on your store, with tools like www.cookie-checker.com, Firebug, EditThisCookie...

TEST MODE

The module is in *Test mode* by default

Enable the test mode: ☒ ☐ ☒ ☐

When the test mode is enabled, only the person using the IP below will be able to see the warning banner.

It allows only one person (the webmaster) to preview the notification banner and configure the module : the banner won't disappear and will only be visible by you. You have to click on *Add the current IP* and *Save* to be this person.

IP for the test mode:

Add the current IP

Save

This way, you will be the only one able to see the cookie notification in the front-office of your store (perfect when you are configuring the module).

Disable the Test mode when you have finished

Enable the test mode: ☐ ☒ ☐ ☒

When the test mode is enabled, only the person using the IP below will be able to see the warning banner.

Don't forget to disable the Test mode and save the configuration when you have finished to make the notification banner visible by everyone.

TYPES OF CONSENT

1. Acceptance through an agreement button

Disable the option “Accept cookies through navigation”

Accept cookies though navigation ☐ ☒ ☐ ☒

When this mode is enabled, the fact of navigating though the website is considered as an acceptance of cookies

It allows you to show a banner with 2 buttons "I accept" and "More information" in order to ask users explicitly to accept the use of cookies.

If you choose this mode, we recommend use to use a message like “*Our webstore uses cookies to offer a better user experience and we recommend you to accept their use to fully enjoy your navigation*”.

With this mode, users must click on the "I accept" button to make the banner disappear and to enable the disabled cookies.

The "More information" button sends users to the CMS of your choice without making the banner disappear. It allows users to get information about the use of cookies before accepting them.

The cross icon on the top right hand corner of the banner allows users to make the banner disappear temporarily (if it prevents them for example from reading something). If you click on the cross, it doesn't mean that you accept the use of cookies, this is why the banner will show up again if you refresh the page or go to another page of the website.

2. Acceptance through navigation (with disappearance of the banner)

Enable the option “*Accept cookies through navigation*” and disable the option “*Warning banner always enabled*”

It allows you to show a banner without buttons in order to ask users less explicitly and less invasively to accept the use of cookies. The banner will disappear and the disabled cookies will be enabled once users decide to continue their navigation and go to another page of the website.

If you choose this mode, we recommend use to use a message like “*Our webstore uses cookies to offer a better user experience and we consider that you are accepting their use if you keep browsing the website.*”

The banner will disappear and the blocked cookies will be automatically enabled once users decide to continue their navigation and go to another page of the website. It is also possible to add a link inside the message in order to allows users to get information about the use of cookies on your store before accepting cookies.

3. Acceptance through navigation (without disappearance of the banner)

Enable the option “*Accept cookies through navigation*” and enable the option “*Warning banner always enabled*”

It allows you to show a banner without buttons in order to ask users less explicitly and less invasively to accept the use of cookies. The banner will never disappear and the disabled cookies will be enabled once users decide to continue their navigation and go to another page of the website.

If you choose this mode, we recommend use to use a message like “*Our webstore uses cookies to offer a better user experience and we consider that you are accepting their use if you keep browsing the website.*”

The banner will never disappear and the blocked cookies will be automatically enabled once users decide to continue their navigation and go to another page of the website. It is also possible to add a link inside the message in order to allows users to get information about the use of cookies on your store before accepting cookies.

BUTTON CONFIGURATION

If the option "*Accept cookies through navigation*" is enabled (banner without button), you don't need to configure this part.

1. Choose the name of the *I accept* button

Title of the "I accept" button: 

If you have a multilingual store, click on the flag at the right of the field to switch languages (automatic detection of the languages of your store) and customize the name of the button in all the languages of your store.

Title of the "I accept" button: 

Choose language:

2. Choose the name of the *More information* button

Title of the "More information" button: 

If you have a multilingual store, click on the flag at the right of the field to switch languages (automatic detection of the languages of your store) and customize the name of the button in all the languages of your store.

Title of the "More information" button: 

Choose language:

3. Choose the CMS page to which you want users to go when they click on the *More information* button

Link of the "More information" button:

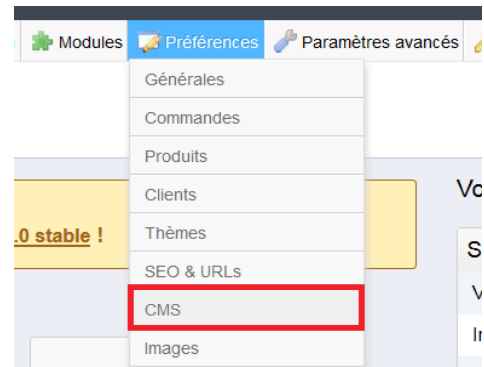

The *More information* button takes you to the CMS page you have chosen.

4. Don't forget to save the changes

To customize the content of this page, you have to go:

- the *Preferences* menu
- the *CMS* tab

You can edit an existing page or create a new page dedicated to the use of cookies

Pages in this category

Page 1 / 1 | Display / 5 result(s)

	ID	URL	Title	Position	Displayed	Actions
--	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	--	--
<input type="checkbox"/>	1	cookie	Cookie	1	✓	 
<input type="checkbox"/>	2	cookie	Cookie	2	✓	 
<input type="checkbox"/>	3	cookie	Cookie	3	✓	 
<input type="checkbox"/>	4	cookie	Cookie	4	✓	 
<input type="checkbox"/>	5	cookie	Cookie	5	✓	 

BANNER CONFIGURATION

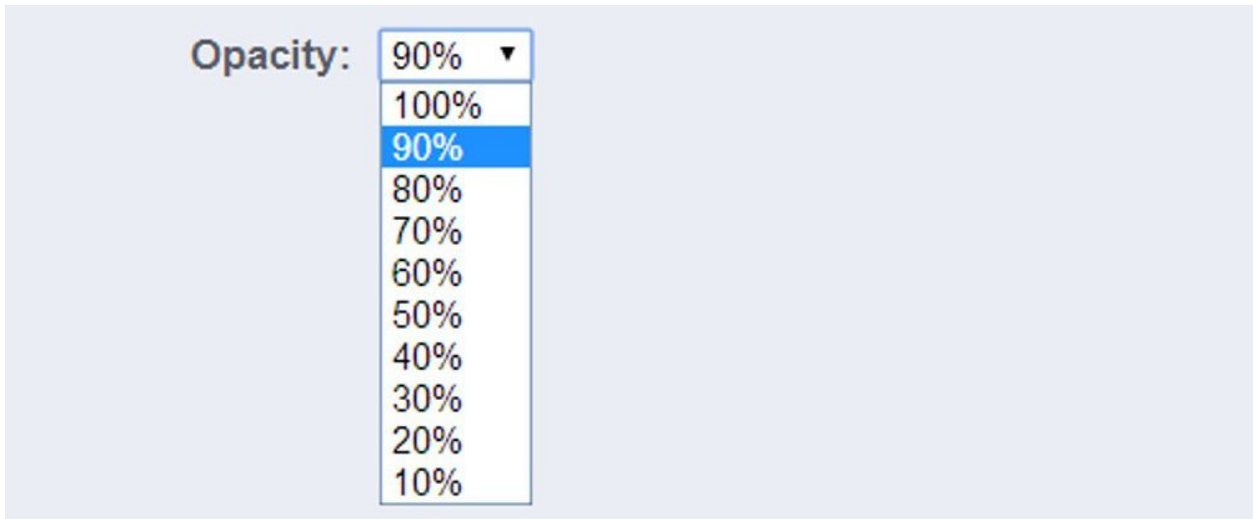

1. Choose the background colour of the notification banner

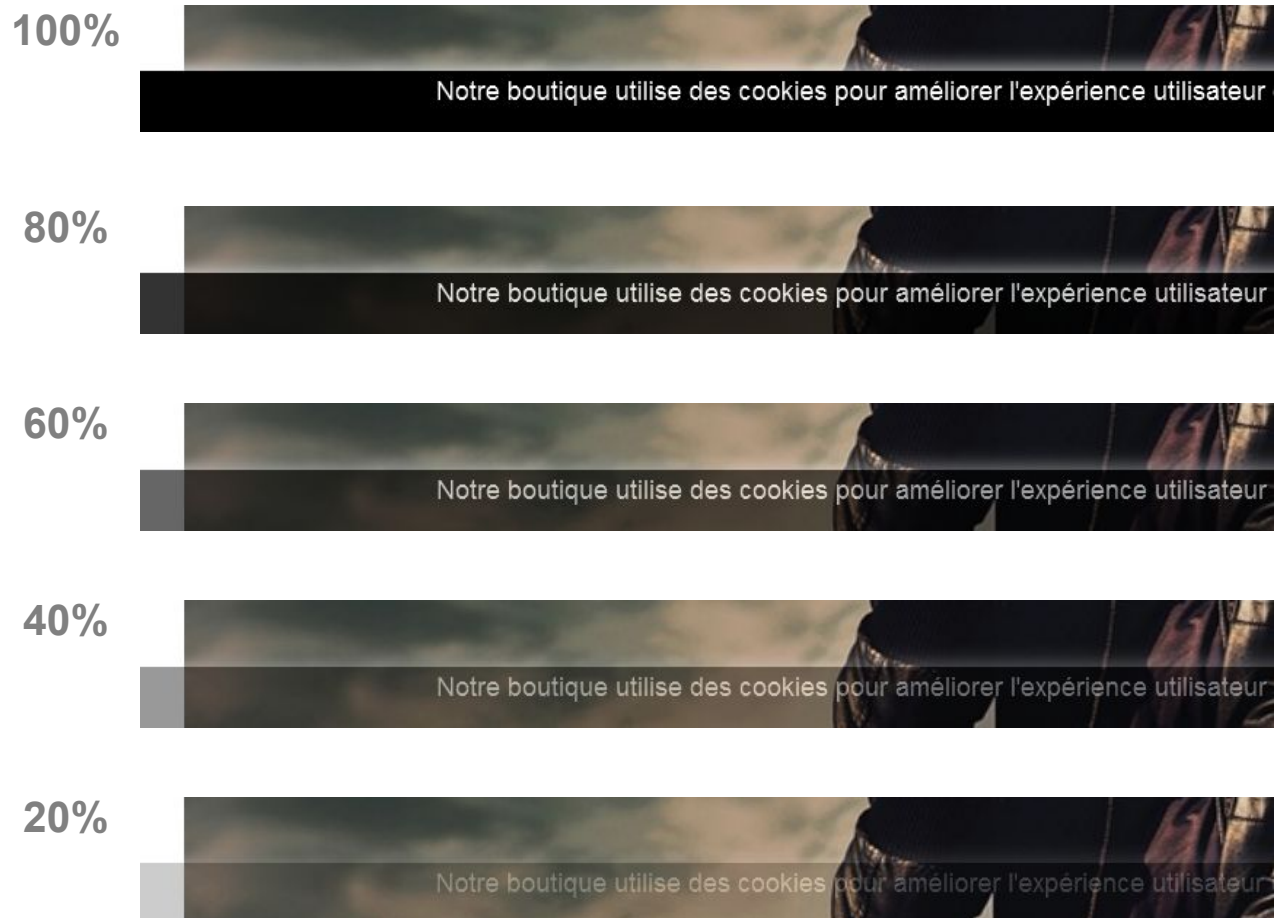

2. Choose the position of the notification banner in the page

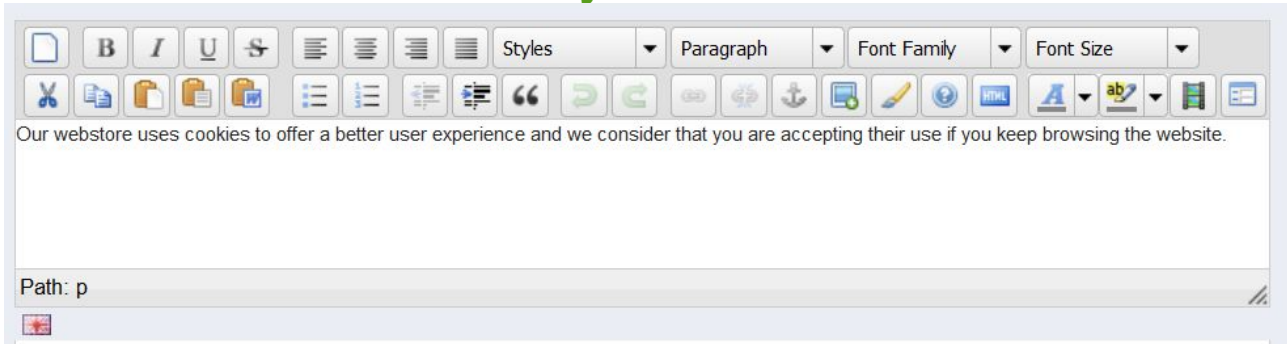

3.Set the level of opacity (transparency) of the banner

Some examples with a black banner (#000000):

4. Write and customize the style of the notification text

Example of message:

Acceptance through the navigation:

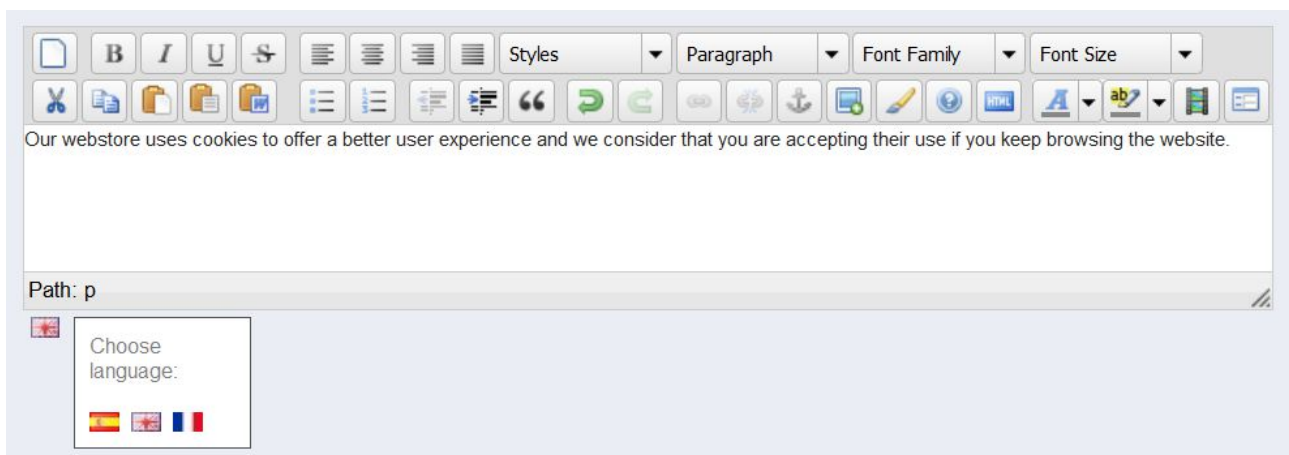

Our webstore uses cookies to offer a better user experience and we consider that you are accepting their use if you keep browsing the website.

Acceptance through an agreement button:

Our webstore uses cookies to offer a better user experience and we recommend you to accept their use to fully enjoy your navigation.

Use the edition bar to customize the text (bold, italic, underline, colour, font, size, link, center...).

5. If you have a multilingual store, click on the flag under the text field to switch languages (automatic detection of the languages of your store) and add a different text per language.

6. Don't forget to save the changes

PROTECTION OF YOUR SEO

The module is made to prevent the search engine bots below from seeing the cookie warning banner when they crawl your website.

Don't clear out the field below it is made to protect the SEO of your store.

Teoma, alexa, froogle, Gigabot, inktomi, looksmart, URL_Spider_SQL, Firefly, NationalDirectory, AskJeeves, TECNOSEEK, InfoSeek, WebFindBot, girafabot, crawler, www.galaxy.com, Googlebot, Scooter, Slurp, bing, msnbot, appie, FAST, WebBug, Spade, ZyBorg, rabaz, Baiduspider, Feedfetcher-Google, TechnoratiSnoop, Rankivabot, Mediapartners-Google, Sogouwebspider, WebAltaCrawler, TweetmemeBot, Butterfly, Twitturls, Me.dium, Twiceler

This list includes the main search engine bots in order to hide the notification banner when they crawl your web to protect the SEO of your store.

Don't hesitate to update this list at any time if you know other search engine bots.

IDENTIFYING COOKIES

The module displays a table of all the modules installed on your store. You just need to tick the modules you want to disable (those using cookies) and they will be enabled only after receiving the user consent.

	<input type="checkbox"/>	bankwire		<input type="checkbox"/>	blockadvertising		<input type="checkbox"/>	blockbestsellers		<input type="checkbox"/>	blockcart
	<input type="checkbox"/>	blockcontact		<input type="checkbox"/>	blockcontactinfos		<input type="checkbox"/>	blockcurrencies		<input type="checkbox"/>	blockcustomerprivacy
	<input type="checkbox"/>	blockmyaccount		<input type="checkbox"/>	blockmyaccountfooter		<input type="checkbox"/>	blocknewproducts		<input type="checkbox"/>	blocknewsletter
	<input type="checkbox"/>	blocksearch		<input checked="" type="checkbox"/>	blocksharefb		<input checked="" type="checkbox"/>	blocksocial		<input type="checkbox"/>	blockspecials
	<input type="checkbox"/>	blocktags		<input type="checkbox"/>	blocktopmenu		<input type="checkbox"/>	blockuserinfo		<input type="checkbox"/>	blockviewed
	<input type="checkbox"/>	feeder		<input type="checkbox"/>	graphartichow		<input type="checkbox"/>	graphgooglechart		<input type="checkbox"/>	graphvisifire
	<input type="checkbox"/>	homefeatured		<input type="checkbox"/>	homeslider		<input type="checkbox"/>	pagesnotfound		<input type="checkbox"/>	sekeywords
	<input type="checkbox"/>	statsbestproducts		<input type="checkbox"/>	statsbestsuppliers		<input type="checkbox"/>	statsbestvouchers		<input type="checkbox"/>	statscarrier
	<input type="checkbox"/>	statsdata		<input type="checkbox"/>	statsequipment		<input type="checkbox"/>	statsforecast		<input type="checkbox"/>	statslive

	<input type="checkbox"/>	statsvisits		<input type="checkbox"/>	themeinstallator		<input type="checkbox"/>	gamification		<input checked="" type="checkbox"/>	ganalytics
	<input type="checkbox"/>	lgcookieslaw									

But to know which cookies you should disable, you must know first what are the existing cookies on your store.

Here are 3 different ways to know the cookies sued on your store :

- Cookie-Checker website

<http://www.cookie-checker.com/>

- or the free **EditThisCookie** addon for Chrome

<https://chrome.google.com/webstore/detail/editthiscookie/fngmhnnpilhplaeedifhccceomclgfbg?hl=fr>

- or the free **Firebug** addon for Mozilla

<https://addons.mozilla.org/fr/firefox/addon/firebug/>

I) Cookie-Checker

1. Go to the website <http://www.cookie-checker.com/>

cookiechecker

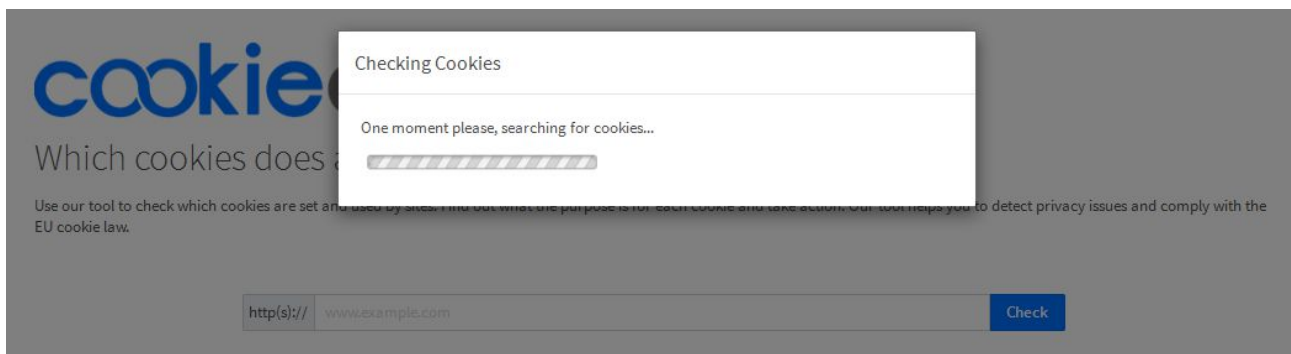

Which cookies does a site use?

Use our tool to check which cookies are set and used by sites. Find out what the purpose is for each cookie and take action. Our tool helps you to detect privacy issues and comply with the EU cookie law.

 Check
  Fix
  Most cookies

2. Write the url of your store and click on the “Check”

3. Wait until the end of the analysis

4. Cookie-checker will tell you the number of cookies on your store

	<input type="checkbox"/> lgcookieslaw						

1. If you know to which module corresponds the cookies identified with Cookie-Checker, EditThisCookie or Firebug, you just need to:

- Tick the name of the module in the table

- Click on the “Save” button

Save

2. If you don't know to which module corresponds the cookies identified with Cookie-Checker, EditThisCookie or Firebug, it's important to distinguish 3 types of cookies :

1. Technical cookies (long names)

ex: ffdbd13d96d903c026c4876e97eb63a4

They are technical cookies from PrestaShop, they are used for the good running of the store and **should not be disabled**.

2. Consent cookie

The *LawCookie* or *_lglaw* cookie allows our module to work and keeps the user consent, this is why you **should never disable it**.

Cookie name:

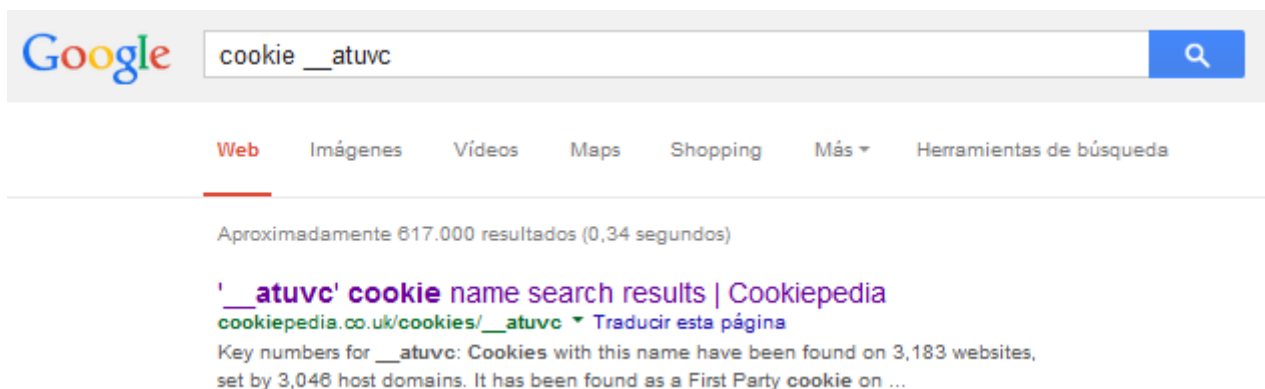

This cookie used the name that you have specified in the *Configuration of the Consent Cookie* section

3. Other cookies (third-party cookies)

The other cookies **must all be disabled**

The most common third-party cookies belong to Google Analytics (*ganalytics*) and are named for example *_ga*, *_utma*, *_utmb*, *_utmc* or *_utmz*.

3. To know to which module corresponds a third-party cookie, type its name in Google to get more information about it

We recommend you to go to the <http://cookiepedia.co.uk/> website that has an important database about more than 11 millions of cookies.

cookie

__atuvc

Search

Cookies Search Results: __atuvc

About this cookie:

This cookie is associated with the AddThis social sharing widget which is commonly embedded in websites to enable visitors to share content with a range of networking and sharing platforms. It stores an updated page share count.

The main purpose of this cookie is: **Functionality**

Key numbers for __atuvc:

Cookies with this name have been found on **3,184** websites, set by **3,047** host domains.

It has been found as a **First Party** cookie on **2,877** websites and a **Third Party** cookie on **2,581** websites.

It has been found as a **Persistent** cookie on **5,455** websites, with an average life span of **0** days.

It has been found as a **Session** cookie on **3** websites.

Once you have ticked the name of a module inside the table and have clicked on the “Save” button, it is important to:

- **refresh your website**
- **make another cookie research with Cookie-Checker, EditThisCookie ou Firebug**
- **make sure that the modules you have disabled no longer appear on Cookie-Checker, EditThisCookie or Firebug**

COMMON ERRORS

1.The banner doesn't appear on my store

- Make sure that the Test mode is disabled

Enable the test mode: ☐ ☒ ☐ ☒

When the test mode is enabled, only the person using the IP below will be able to see the warning banner.

- Delete the cookies of your browser

If you have already accepted the use of cookies, the consent cookie will keep your consent during the duration set in the module and the banner will only appear again when the time is over. To avoid waiting until then, you just need to delete the existing cookies existants of your browser to see the banner again.

2.The banner never disappears on my store

- Make sure that the Test mode is disabled

Enable the test mode: ☐ ☒ ☐ ☒

When the test mode is enabled, only the person using the IP below will be able to see the warning banner.

- Make sure that the option “*Message d'avertissement visible en permanence*” is disabled

Warning banner always enabled: ☐ ☒ ☐ ☒

Only works if the previous option is enabled

- Make you that you have clicked on the “*I accept*” button (acceptance through an agreement button) or that you have gone to another page of the store (acceptance through navigation). The cross icon only allows you to close the banner temporarily but doesn't correspond to the acceptance of cookies.

3.The disabled cookies keep appearing on PS 1.4

Make sure to follow the installation instructions and realise the indicated modifications into the Module.php file. Without this modification (PrestaShop v1.4), the module won't be able to block cookies.

4.I have not disabled cookies on my store

The module doesn't block cookies automatically, you must tell it which modules it has to block. We explain to you in details in this guide [how to identify cookies](#) and [how to block them](#). We will gladly help you if you need help configuring the module but we decline any responsibility if you don't follow these instructions and don't block correctly the cookies on your store.

YOUR OPINION

Please take the time to rate our module after buying it. This is quick, constructive for other PrestaShop users and it helps us develop our activity.

<http://addons.prestashop.com/en/ratings.php>

If you have a problem with our module, please get in touch with us before leaving a feedback, our technical support will do all its best to solve your problem.

Quality of the module	      
Quality of the documentation	      
Ease of installation
