INSTALLATION

1.Go to the menu *Modules* → *Modules of your PrestaShop*

2.Click on *Add a new module* (on the top right corner)

3.Click on *Choose a file*

4.Select the *lgdropshipping.zip* file

5.Click on *Upload this module*

6.Find the *Dropshipping - Emails to Suppliers and Carriers*

7.Click on *Install*

Shipping and Logistics

Dropshipping - Emails to Suppliers and Carriers v1.2.0 - by Línea Gráfica
Send your dropshipping orders automatically by email to your suppliers and carriers.

8.Click on *Configure*

Shipping and Logistics

Dropshipping - Emails to Suppliers and Carriers v1.2.0 - by Línea Gráfica
Send your dropshipping orders automatically by email to your suppliers and carriers.

If you get an error during the installation, [please read the section 1 of our FAQ.](#)

RECEIVE COPIES OF THE EMAILS

You can choose to receive a copy of every email in order to be sure that the emails have been correctly sent

For that, you just need to add your email address in the field “Your email address” at the bottom of the page.

RECEIVE COPIES OF THE EMAILS

Your email address:

Save

You will receive copies of the emails sent to carriers AND suppliers.

If you don't receive emails, please check the email configuration of your store by going to “Advanced parameters” → “Email” → “Test your email configuration” → “Send a test email to” at the bottom of the page.

TEST YOUR EMAIL CONFIGURATION

Send a test email to

Send an email test

If you don't receive the test email, please get in touch with your hosting.

SEND DROPSHIPPING EMAILS

Choose the order status for which you want to send emails to the suppliers and carriers

SEND DROPSHIPPING EMAILS 

Send supplier emails when the order status changes to:

- ☐ Awaiting cheque payment
- ☒ Payment accepted
- ☒ Preparation in progress
- ☐ Shipped
- ☐ Delivered
- ☐ Canceled

Send carrier emails when the order status changes to:

- ☐ Awaiting cheque payment
- ☐ Payment accepted
- ☐ Preparation in progress
- ☒ Shipped
- ☒ Delivered
- ☐ Canceled

When the order status changes and is the same as above, the module will automatically send the emails to the corresponding suppliers and carriers.

IMPORTANT: the emails will be automatically sent when changing the status of your orders

To change the status of an order, just go to the menu “Orders” → “Orders”

ORDER ZZLFRQGBE #18  

STATUS 2

DOCUMENTS 1

 Payment accepted 2015-01-16 19:56:20

 Awaiting bank wire payment 2014-11-21 20:32:14

Preparation in progress

UPDATE STATUS

CONFIGURATION OF SUPPLIERS

The module automatically displays the list of suppliers that exist on your store. To update this list, go to the menu “Catalog” → “Suppliers”.

For each supplier:

1.Assign a name to the variable {SUPPLIER_NAME}

Variable {SUPPLIER_NAME}:

This name will be re-used automatically in the subject and body of the emails via the variable {SUPPLIER_NAME}.

2.Add the email address to which you want to send the dropshipping email

Email 1 (required):

3.Add a second email address (optional) to which the dropshipping email will also be sent

Email 2 (optional):

4.Choose to attach the invoice and/or delivery slip to the email in PDF format

Attachments : ☒  Invoice ☒  Delivery slip

The invoices and delivery slips are automatically generated by PrestaShop, they are the ones available on your “Orders” page.

If you have an order with several suppliers, all the products of the different suppliers will appear in the same invoice and delivery slip (1 invoice and 1 delivery slip for each order).

5. Choose the subject of the email

Email subject :

Dropshipping Notification - Preparation in Progress - Order {ORDER_REF}

6. Choose the content of the email

Email content :

Dear {SUPPLIER_NAME},

Please prepare the order #{ORDER_REF} of {CUSTOMER_NAME} that contains the following items: {PRODUCTS} The package will be sent with the delivery method {CARRIER_NAME} to the following address: {CUSTOMER_ADDRESS}

Best regards,

You can use the following variables for dynamic content:

*The variables with the sign * can be used in the subject of the email*

{CARRIER_NAME}	* Carrier contact name
{CUSTOMER_ADDRESS}	Delivery address (name, street, zip code, city, region, country)
{CUSTOMER_EMAIL}	Customer email address
{CUSTOMER_NAME}	* Customer name
{CUSTOMER_PHONE}	Customer phone number(s)
{INVOICE_NUMBER}	* Invoice number
{ORDER_DATE}	* Order date
{ORDER_ID}	* Order ID
{ORDER_INFO}	Note written by the customer during the order process
{ORDER_REF}	* Order reference
{PRODUCTS}	Products (quantity, name, attributes, reference, link)
{SUPPLIER_ADDRESS}	Supplier address (name, street, zip code, city, region, country)
{SUPPLIER_NAME}	* Supplier contact name
{SUPPLIER_PHONE}	Supplier phone number(s)

It's important to keep the { and } signs around the variables for them to work

The variables {...} will be automatically substituted by the data of the corresponding order.

You can put the variables where you want in the subject and body of the email. You don't need to use all variables, only those that you need.

ASSIGN CARRIERS TO SUPPLIERS

It allows you to assign a carrier to each supplier in order to send the orders to the right carriers.

ASSIGN CARRIERS TO SUPPLIERS

SUPPLIERS		CARRIERS
Fashion Supplier	↔	DHL
Tendance Supplier	↔	Royal Mail

Save

 The module will automatically displays the list of suppliers and carriers that exist on your store. To update this list, go respectively to the menu “Catalog” → “Suppliers” and “Shipping” → “Carriers”.

If one of your orders contains for example:

- products that belong to the Fashion supplier
- products that belong to the Tendance supplier

And that:

- the Fashion products are assigned to the DHL carrier
- the Tendance products are assigned to the Royal Mail carrier

The module will send:

- an email only for the Fashion products to the DHL carrier
- an email only for Tendance products to the Royal Mail carrier

CONFIGURATION OF CARRIERS

The module automatically displays the list of suppliers that exist on your store. To update this list, go to the menu “Shipping” → “Carriers”.

For each carrier:

1.Assign a name to the variable {CARRIER_NAME}

Variable {CARRIER_NAME}:

This name will be re-used automatically in the subject and body of the emails via the variable {CARRIER_NAME}.

2.Add the email address to which you want to send the dropshipping email

Email 1 (required):

3.Add a second email address (optional) to which the dropshipping email will also be sent

Email 2 (optional):

4.Choose to attach the invoice and/or delivery slip to the email in PDF format

Attachments : ☐ Invoice ☒ Delivery slip

The invoices and delivery slips are automatically generated by PrestaShop, they are the ones available on your “Orders” page.

If you have an order with several suppliers, all the products of the different suppliers will appear in the same invoice and delivery slip (1 invoice and 1 delivery slip for each order).

5. Choose the subject of the email

Email subject :

Dropshipping Notification - Package Pick-Up - Order {ORDER_REF}

6. Choose the content of the email

Email content :

Dear {CARRIER_NAME},

Please pick up the order #{ORDER_REF} in the company {SUPPLIER_NAME} located at the following address: {SUPPLIER_ADDRESS} Please send the package to the following address: {CUSTOMER_ADDRESS}

Best regards,

You can use the following variables for dynamic content:

*The variables with the sign * can be used in the subject of the email*

{CARRIER_NAME}	* Carrier contact name
{CUSTOMER_ADDRESS}	Delivery address (name, street, zip code, city, region, country)
{CUSTOMER_EMAIL}	Customer email address
{CUSTOMER_NAME}	* Customer name
{CUSTOMER_PHONE}	Customer phone number(s)
{INVOICE_NUMBER}	* Invoice number
{ORDER_DATE}	* Order date
{ORDER_ID}	* Order ID
{ORDER_INFO}	Note written by the customer during the order process
{ORDER_REF}	* Order reference
{PRODUCTS}	Products (quantity, name, attributes, reference, link)
{SUPPLIER_ADDRESS}	Supplier address (name, street, zip code, city, region, country)
{SUPPLIER_NAME}	* Supplier contact name
{SUPPLIER_PHONE}	Supplier phone number(s)

It's important to keep the { and } signs around the variables for them to work

The variables {...} will be automatically substituted by the data of the corresponding order.

You can put the variables where you want in the subject and body of the email. You don't need to use all variables, only those that you need.

FAQ – COMMON ERRORS

All the common errors about this module have been reported below and we explain to you in details how to solve them.

Please read the section that corresponds to your problem **BEFORE** getting in touch with us, you will probably find the answer to your problem in it.

I) I don't manage to install the module.....11

II) The emails are not sent.....12

If the problem you are having is not listed, **then please get in touch with us.**

I) I don't manage to install the module

When installing the module, you may encounter this error message:

*File too large (limit of ***** bytes)*

Reason of the error: The problem comes from the value of your 'upload_max_filesize' variable that is not large enough compared to the module size.

To solve the problem, you can either :

- Go to your FTP and increase the value of your 'upload_max_filesize' variable in the file "/config/ config.inc.php" or in the file "php.ini"
ini_set('upload_max_filesize', '100M');
- Or install the module directly from your FTP, you just need to unzip the module zip file and copy/paste the folder "lgdropshipping" inside the folder "modules" of your FTP (the module will appear in your back-office as soon as the module folder is added into the "modules" folder).

II) The emails are not sent

2.1. Make sure that you use the module correctly

2.1.1. You have to set the status inside the module and click on “Save”

The screenshot shows the 'SEND DROPSHIPPING EMAILS' module configuration. It has two columns: 'Send supplier emails when the order status changes to:' and 'Send carrier emails when the order status changes to:'. Each column has a list of status options with checkboxes. In the supplier column, 'Payment accepted', 'Preparation in progress', and 'Delivered' are checked. In the carrier column, 'Shipped' and 'Delivered' are checked.

Send supplier emails when the order status changes to:	Send carrier emails when the order status changes to:
<input type="checkbox"/> Awaiting cheque payment	<input type="checkbox"/> Awaiting cheque payment
<input checked="" type="checkbox"/> Payment accepted	<input type="checkbox"/> Payment accepted
<input checked="" type="checkbox"/> Preparation in progress	<input type="checkbox"/> Preparation in progress
<input type="checkbox"/> Shipped	<input checked="" type="checkbox"/> Shipped
<input type="checkbox"/> Delivered	<input checked="" type="checkbox"/> Delivered

2.1.2. Then go to the menu “Orders” → “Orders”, edit an order and add the same status you set in the module

The screenshot shows the 'ORDER' details page for order #18. It has tabs for 'STATUS' (2) and 'DOCUMENTS' (1). The status history shows 'Payment accepted' on 2015-01-16 19:56:20 and 'Awaiting bank wire payment' on 2014-11-21 20:32:14. At the bottom, there is a dropdown menu currently showing 'Preparation in progress' and an 'UPDATE STATUS' button.

2.2. Check your email configuration

2.2.1. Go to the menu “Advanced parameters” → “Email”

2.2.2. Test your email configuration

The screenshot shows the 'TEST YOUR EMAIL CONFIGURATION' module. It has a text input field labeled 'Send a test email to' with the placeholder 'recipient@example.com'. Below the input field is a button with an envelope icon and the text 'Send an email test'.

2.2.3. If you don't receive the test email, please check your email configuration

2.3. Make sure that an email template exists for your language

2.3.1. Go to the menu “Localization” → “Languages”

2.3.2. Find the ISO code of the language currently used on your back-office

LANGUAGES 4

ID ▲▼	Flag	Name ▲▼	ISO code ▲▼	Language code ▲▼	Date format ▲▼	Date format (full) ▲▼
--		--				
<input type="checkbox"/> 1		Spanish	es	es-es	d/m/Y	d/m/Y H:i:s
<input type="checkbox"/> 4		French	fr	fr-fr	d-m-y	d/m/Y H:i:s
<input type="checkbox"/> 5		English	en	en-us	Y-m-d	Y-m-d H:i:s
<input type="checkbox"/> 6		Italiano	it	it-it	d-m-Y	d-m-Y H:i:s

2.3.3. Go to your FTP, enter the folders “modules” → “lgdropshipping” → “emails” (/modules/lgdropshipping/emails/) and make sure that a folder exists for your ISO code

3.4. If the folder of your language doesn't exist, please copy one of them and rename it with your current ISO code

YOUR OPINION

Please take the time to rate our module after buying it. This is quick, constructive for other PrestaShop users and it helps us develop our activity.
